#### **REMARKS**

This Certificate of Correction is filed under 37 CFR 1.322 to correct errors in the specification and claims that were indicated correctly by the applicant but appear in error on the published application. In the description, the Applicant indicates that the ceramic may be Aluminum Nitride, abbreviated with the letters "a" "l" and "n", but entered into the publication with the letters "a" "i" and "n". In addition, the Applicant erroneously believed that amendments to claims 8 and 12 had been entered as the result of an Amendment filed on August 25, 2008. They correct the term "chuck" to "chuck assembly" to be in line with the language of the rest of the claims.

These corrections do not constitute new matter and do not require reexamination.

## CONCLUSION

Should the Examiner have any questions regarding the above remarks, the Examiner is requested to telephone Applicant's representative at the number listed below.

Respectfully submitted,
